Supplies Network Selected as HP Collaborative Infrastructure Partner for Managed Print Services

St. Louis, MO – September 14, 2009 – Supplies Network today announced that its CARBON SiX® Managed Print Services (MPS) program has been selected as an HP national Collaborative Infrastructure Partner. The company will provide independent dealers and their end-users with a comprehensive, full service managed print solution with the unmatched performance and reliability of HP supplies.

“With this collaborative relationship, Supplies Network offers dealers a compelling program — an award-winning managed print solution and the added value of HP’s resources and products,” said Greg Welchans, president of Supplies Network.

“Through strategic relationships with Collaborative Infrastructure Partners such as Supplies Network, HP can reach and support many more reseller partners,” said Herbert Koeck, vice president, Laserjet and Enterprise Systems, Imaging and Printing Group, HP. “HP continues to expand our engagement with partners like Supplies Network who are providing industry-leading MPS infrastructure and services to help resellers deliver HP products and supplies to their customers.”

CARBON SiX MPS services are both comprehensive and flexible, including: HP sales and solution training, managed print deal support resources, assessment capabilities, billing infrastructure, print environment monitoring and reporting, technical support and service deployment, supplies replenishment and other value-added services required to deliver a successful and complete managed print experience to the end-user.
