

Press Release Announcement

TriMega Selects Supplies Network's Turn-Key Print Management Program

TriMega Purchasing Association announces the selection of Supplies Network's CARBON SiX as its preferred Print Management Program. CARBON SiX is a proven, all-inclusive turn-key program that allows independent dealers to upgrade to solution selling with no up-front costs. Components include: software, hardware, service, OEM and compatibles supplies, training and marketing support

"This is the right time for our dealers to lay the foundation for future business security and profitability," commented Charlie Cleary, President of TriMega. "Supplies Network bundles all of the components for a successful print management program, and provides detailed step-by-step training, follow-up support, and ongoing consultation."

CARBON SiX is the most complete solution in the industry, offering flexibility for the dealer and the customer. It includes:

- Printing supplies (HP, OEM and/or compatible CARBON SiX brand toner and parts)
- Robust software (Reports to monitor, troubleshoot and right-size printer fleets)
- Nationwide service (Technical support over the phone and onsite)
- Inventory management (Just-in-time inventory ordering and delivery)

"CARBON SiX offers the highest chance of financial success," said Supplies Network President Greg Welchans. "It is based on a simple business model, has higher margins and incremental profits that start with the first cartridge sale."

If you are interested in learning more about CARBON SiX Print Management, or are interested in signing up for a Webinar, go to www.carbonsix.com. Or, contact Supplies Network's print management advisor at 877-826-5111.
