

# Website Updates

## Release November 8, 2018

- Update to resolve issue that prevented Vendor Drop Ship (VDS) items from being allocated correctly when submitting a cart.

## Release October 17, 2018

- We've added GDPR a cookie consent popup to the site. This is a common compliancy feature as found on many other websites..

## Release October 12, 2018

- Update to resolve issue that prevented Vendor Drop Ship (VDS) items from being allocated correctly when submitting a cart.

## Release September 19, 2018

- Update to resolve issue with backorder items on the site.

## Release July 19, 2018

- On the Products page, the links for 'HP Printer Finder' and 'HP Supplies Finder' have been removed as they are no longer being supported by HP.

## Release May 10, 2018

- Negative Supplies Network orders will only defer for approval by sales stagg if they are more than \$10 negative.

## Release February 15, 2018

- On the MFG Supported Pricing page, we've updated the export and pricing matrix to capture additional associated price lists.

## Release October 19, 2017

- The Pricing screen has been updated to show all associated contract price lists in addition to the organization price lists it was already showing.

# Website Updates

## Release August 3, 2017

- Removed SuppliesNet and SuppliesNet-Tabular View from the Products drop down.

## Release July 20, 2017

- Fixed issues with HP Promotions link. It now behaves like all other promo links besides promotion dashboard.

## Release July 13, 2017

- There is a new HP Promotions link that will only appear to those accounts that are authorized HP resellers. This page is very similar in functionality to the Promotion Dashboard.

### On the Contract Pricing page:

- Product Yield and Reference # are now shown in the results.
- There is now a drop down control to choose how to sort the results.
- Added click functionality to Price List results which will go to the item view for the clicked Price List items.

## Release June 8, 2017

- The new Contract Pricing page is now active. It is called "MFG. Supported Pricing". Customers can look up their own special/big deal pricing (and other contract pricing). They can be pulled by contract or by SKU.
